QASHQAI Defy Ordinary

Nissan QASHQAI. Defy Ordinary.

QASHQAI has done it again - defying expectations. It continues to overcome the challenges of the city, bringing excitement to urban drivers with its eye-catching, refined design, and enhanced connectivity.

Ideal for urban driving, QASHQAI e-POWER^{*} uses a petrol engine and lithium-ion battery to power an electric motor, giving you the pleasure of an electric drive without the need to plug it in.

The sporty N-Design grade brings you bold, distinctive styling with no compromise on comfort. Black Alcantara[®] and Black Quilted Synthetic leather-accented⁺ upholstery, special 20" alloy wheels, two-tone paint and a premium interior add an extra level of dynamism and elegance to the range.

All you have to do now is decide which QASHQAI to choose.

* Cover page: Up to 10 years or 300,000km (whichever occurs first), when servicing at authorised Nissan dealers. Full terms at [Nissan.com.au/warranty](https://www.nissan.com.au/warranty). QASHQAI N-Design model shown throughout unless otherwise stated.

* Available on Ti, Ti-L and N-Design.
+ Leather-accented features and upholstery may contain synthetic material. Minor trim variations may occur from time to time.

Sharp modernity.
Redefined.

With its new, sporty and more dynamic proportions, QASHQAI is an icon redefined. Bolder, subtly sophisticated and resolutely striking, its new lighting signature and sharply cut grille add a powerful expression of modernity.

New redesigned front grille

New rear bumper

New LED lights^

New 20" alloy wheels

New 20" N-Design wheels with a distinctive geometric pattern, plus new LED lights with sequential turn signals enhance an increased sense of poise and performance.

[^] LED rear taillights available on ST and ST-L and signature taillights available on Ti onwards.

Surrounded by refinement.

A new, more elegant interior, with quality materials, superior finishes and subtle, sophisticated, customisable ambient lighting* create an instant feeling of calm and comfort in a cabin you can truly make your own.

* Available on Ti onwards.

Elegance at its best.

QASHQAI's cabin is even more designed around you. From the three sharper, clearer digital displays to the ergonomically-designed cockpit and seating to the convenient cup holders, USB outlets and storage space. Everything is right where you need it, effortlessly.

Focus on what matters.

The Nissan QASHQAI is equipped with advanced safety technologies to monitor the road and help keep you and your passengers safe.

ProPILOT^Δ allows you to enjoy your highway commute by automatically keeping up with traffic flow and helping keep you centred in your lane through a combination of automated steering, acceleration and braking. This intelligent safety technology helps ease driver workload in highway traffic and long commutes at the push of a button.

Intelligent Around View[®] Monitor with Moving Object Detection[^] provides all-round reassurance from a 360 degree view of your car with four cameras mounted around the vehicle to provide front, rear and kerbside views.

INTELLIGENT CRUISE CONTROL^Δ
Keeps your distance. It measures the distance from the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

INTELLIGENT FORWARD COLLISION WARNING^Δ
Keeps an eye up to two vehicles in front of you. When the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down.

EMERGENCY LANE KEEPING^Δ
A full suite of technologies to help you avoid unintentional lane departure. Keeps you centered in the lane either by steering wheel action or braking in an emergency situation.

INTELLIGENT EMERGENCY BRAKING WITH JUNCTION ASSIST, PEDESTRIAN AND CYCLIST RECOGNITION^Δ
Monitors constantly the presence of vehicles, cyclists, or pedestrians in your way. The system warns the driver and applies brakes if there is any danger ahead and if it is necessary. Junction Assist improves safety at intersections by reducing the risk of collision with upcoming traffic.

^Δ ProPILOT cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic and road conditions. System has limited control capability and the driver may need to steer, brake or accelerate at any time to maintain safety. See Owner's Manual for safety information. ProPilot - Available on Ti onward.

[^] Driver's aid only. It cannot completely cover blind spots and may not detect moving objects. Always check surroundings before moving vehicle.

** Intelligent Around View Monitor with Moving Object Detection available on ST-L onward.*

Take a fresh view of parking.

QASHQAI's Around View Monitor* helps you park with confidence. ProPILOT Park^Δ, available on QASHQAI with e-POWER⁺, offers automatic parking space detection and automatic control of steering, braking and acceleration while parking.

Rear camera shows what is right behind you

Side camera shows you a kerbside view

All-around view adds a 360° view as you manoeuvre

Front camera combines front and overhead views

Better all round.

Split-screen closeups of your front, rear and kerbside views giving you full visibility at ground level, are perfect for narrow spaces where precision is key.

* Driver's aid only. It cannot completely cover blind spots and may not detect moving objects. Always check surroundings before moving vehicle.
