All-new. All-electric.

NISSAN ARIYA

Defy Ordinary

All-new. All-electric. Nissan ARIYA.
An exhilarating electric experience.

Electricity can still enlighten us more. ARIYA pairs Nissan's long standing SUV expertise with a dedicated, 100% electric vehicle platform and technology. ARIYA is also about fitting into your life, offering many choices including battery capacity, range and two-wheel or e-4ORCE electric all-wheel-drive – so you can enjoy next-level control and confidence.

*Up to 10 years or 300,000km (whichever occurs first), when servicing at authorised Nissan dealers. Where vehicle is not serviced through Nissan or ceases to be serviced at Nissan, additional years will not be added so 10 year/300,000km warranty (whichever occurs first) may not apply. Warranty protection will remain 5 year/unlimited km warranty, plus any additional service activated years previously added. Conditions apply. Lithium-ion battery pack warranted against battery capacity loss below 9 bars out of 12 (as shown in vehicle capacity gauge), for a period of 8 years or 160,000 kilometres, whichever occurs first. Full terms at [Nissan.com.au/warranty](https://www.nissan.com.au/warranty).

Intelligent. Intuitive. ARIYA.

Step into the world of ARIYA, and you'll never want to look back. More than a refined 100% Electric Crossover, ARIYA embraces excitement, comfort and relaxation.

Power, redefined

Drive smoothly and quietly with electric power on tap. Go the distance with ARIYA's 100% electric driving range, and go confidently thanks to e-4ORCE, Nissan's electric all-wheel-drive technology.

Connectivity, recharged

Command your digital world and your compatible devices. Swipe your navigation to have it in front of your eyes, or touch the ARIYA's subtle yet elegant controls with haptic feedback. ARIYA invites you to interact with your vehicle in a whole new way.

Assistance, enhanced

Driving should have always been this easy. Relax, and let ARIYA assist you through stop and-go traffic and even staying in your lane*. This is what it's like to have great technology on your side.

*Driver's aid(s) only, not a substitute for safe driving. Always monitor your surroundings.

Let your ARIYA stun the world.

Wow with super-thin LED headlamps and signature light blades – futuristic details that are mirrored on the inside with ambient lighting and switches that glow to life. Intricate Japanese Kumiko patterns on the front grille and door inserts, show that tradition can also inspire the future.

A welcoming start

ARIYA welcomes you from the start with a memory system that can retain driver & passenger seat¹, door mirrors and steering wheel position². Feel at ease right before stepping into your car.

Light & shadow

A traditional Japanese Kumiko pattern signature is incorporated in several elements of the car. In the front door inserts, it plays between light and shadow with andon lighting, a traditional Japanese technique that provides a calming, welcoming ambience.

Haptic Touch

The Japanese concept of sei, or “clever treatment of design or function” is represented by haptic controls that provide a tactile response.

20" Alloy Wheels² with aero cover

Leave an impression with this striking wheelset.

1. Available on Advance+ and Evolve models.
2. Available on Evolve models.

Go zen with Japanese inspired design.

With a flat floor and a relaxing, open vibe, the ARIYA interior defies ordinary.

Open up your possibilities

True to its crossover status, ARIYA is designed to make room for whatever is on the agenda. Even with a full house, the generous cargo area can easily handle luggage for a weekend getaway. For the most cargo space, simply fold down the second row and in case your hands are full – an easy kick under the bumper and the hands free motion sensing power tailgate¹ opens right up.

UP TO 1,350L¹
(Second row seats folded flat)

Divide-N-Hide®
configurable cargo system¹

Hands free motion
sensing power tailgate²

¹. Available on Engage, Advance & Advance+ models.

². Available on Advance, Advance+ & Evolve models.

Technology that plugs into your senses.

Chances are, you've never experienced anything quite like ARIYA. Instead of traditional buttons, the ARIYA controls light up when the vehicle is turned on, react with haptic feedback when pressed, and then disappear back into the serenely designed interior when the vehicle is turned off. The Integrated Display Interface features dual 12.3" screens that are breathtaking to see and simple to use.

³ Available on Advance+ & Evolve models.

Drive, work, just relax — it's up to you.

Adapt the ARIYA's unique interior to your needs. Push a button and watch its power-sliding center console³ move backwards and forwards to personalise your space. ARIYA can even save your settings, and those of additional drivers, for even more convenience. Add an EV platform that offers a completely flat floor design for a lounge-like interior, and ARIYA's cabin is the perfect space for precious "me time". Need a charge? Wireless smartphone charging² for your compatible device keeps your cabin tidy and your phone topped-up on the go.

e-4ORCE

DUAL MOTOR ALL-WHEEL DRIVE

The all-wheel-drive experience. Now 100% electric.

ARIYA's e-4ORCE dual-motor electric all-wheel-drive technology¹ offers more than just an awe-inspiring driving experience. It combines a balanced, smooth ride with stable dynamics, reducing pitch and dive characteristics on the road and increasing passenger comfort, especially in stop start city driving.

Movement is effortless. Power, seemingly limitless. Press the accelerator, and e-4ORCE responds astonishingly, propelling ARIYA up to speed with remarkable force and poise. Need to get through bad weather? e-4ORCE precisely meters out power to each of its wheels, individually, so you can navigate slippery roads with more confidence.

Dual motors, placed front and rear create near-perfect 50/50 weight distribution. Together, providing 600 Nm of torque for instant acceleration and balanced power delivery to all four wheels. With the addition of individually controlled braking for each wheel e-4ORCE electric all-wheel-drive offers seamless and controlled power for stability and enhanced cornering control.

Driving modes.

ARIYA offers up to four driving modes to deliver the best performance in any situation.

IN A TWO WHEEL DRIVE CONFIGURATION,
3 DRIVING MODES ARE AVAILABLE:

STANDARD
Enjoy the perfect balance of responsive performance and efficient driving – ideal for all your day to day journeys.

ECO
Go lightly, with softer acceleration for better economy and zero emissions. ECO mode is ideal for longer adventures.

SPORT
Feel the surge of exciting performance, with powerful acceleration for a more dynamic drive.

WITH e-4ORCE, AN ADDITIONAL DRIVING MODE
IS AVAILABLE:

SNOW
Stay confident and in-control in the winter, with smooth acceleration from take-off for assured grip in snow and slippery conditions.

1. Available on Evolve models. Features described are driver's aid(s) only, not a substitute for safe driving. Always monitor your surroundings.

Safety that watches out for you.

ARIYA has been designed to protect you with advanced safety technologies. Systems that watch the road, alert you to hazards and can even step in to help avoid or reduce the impact of a collision.

INTELLIGENT AROUND VIEW® MONITOR WITH MOVING OBJECT DETECTION¹
Provides a virtual 360-degree scene of the car in bird's-eye view to facilitate manoeuvring. It detects moving objects in the surroundings for stress-free and confident driving.

INTELLIGENT REAR VIEW MIRROR²
Employs a camera installed at the rear of the vehicle, allowing the driver to switch between regular mirror view and the digital view fed by a camera. The camera view displayed on the screen mimics the appearance of a traditional mirror, but without potential obstructions.

INTELLIGENT FORWARD COLLISION WARNING
This system detects a braking car two vehicles ahead to prevent multi-vehicle accidents by raising an alert.

INTELLIGENT EMERGENCY BRAKING WITH JUNCTION ASSIST, PEDESTRIAN AND CYCLIST RECOGNITION
Monitors constantly the presence of vehicles, cyclists, or pedestrians in your way. The system warns the driver and applies brakes if there is any danger ahead and if it is necessary. Junction Assist improves safety at intersections by reducing the risk of collision with upcoming traffic.

INTELLIGENT REAR AUTOMATIC BRAKING
The system detects static objects and obstacles in reversing scenes and brakes if necessary to reduce the chance of a collision.

INTELLIGENT BLIND SPOT INTERVENTION
Boost your vision: the system will warn you if there are vehicles in the blind spots diagonally behind the car and will apply corrective braking to bring the vehicle back into the lane if you attempt to move into the path of a detected vehicle.

1. Available on Advance, Advance+ & Evolve models
2. Available on Evolve models only.
Features described are driver's aid(s) only, not a substitute for safe driving. Always monitor your surroundings.

With ProPILOT¹, you're in safe hands.

ProPILOT¹. Allows you to automatically keep up with traffic flow and assists to keep you centred in your lane, even through gentle curves, with a combination of automated steering, acceleration and braking. This intelligent safety technology helps ease driver workload in highway traffic and long commutes at the push of a button.

e-Pedal Step². Experience a more intuitive way to drive. e-Pedal Step lets you choose, with the option to accelerate and decelerate effectively with just the accelerator pedal at speeds above 10km/h. Meanwhile leaving the brake pedal for harder braking and coming to a complete stop.

1. ProPILOT cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic and road conditions. System has limited control capability and the driver may need to steer, brake or accelerate at any time to maintain safety. See Owner's Manual for safety information.

2. e-Pedal Step may not be suitable under all driving conditions, correct operation is the responsibility of the driver.

Features described are driver's aid(s) only, not a substitute for safe driving. Always monitor your surroundings.

Go there with confidence.

This refined 100% Electric Crossover may be all-new, but ARIYA is infused with Nissan’s long history of know-how in EV development. Spend more time on the road with advanced battery technology that enables fast charging wherever the road takes you. Whether you choose two-wheel drive or e-4ORCE all-wheel drive, charge up and explore freely.

CHARGE AT HOME

With a dedicated wall charger, you can plug into the easy life and wave goodbye to the petrol pump. You can also plug your car into the wall from a domestic home socket, just like a laptop or any other device, and the battery will top-up as required. Wall charger and charging cable are offered as optional cost options.

CHARGE ON THE GO

Hit the road with a wide range of charging options on the way. Plug into CCS high power chargers getting up to DC 130 kW across Australia and enjoy 10%-80% battery charge in 35 minutes¹ on 63 kWh models.

	Battery charge in approximately ¹			
	DC quick charger		AC charger	
	50 kW charging rate (10%-80%, mins)	130 kW charging rate (10%-80%, mins)	7.4 kW charging rate (10%-100%, hours)	22 kW charging rate (10%-100%, hours)
63 kWh ENGAGE & ADVANCE	65	35	9	–
87 kWh ADVANCE+ & EVOLVE	90	40	12.5	4.5

1. Figures quoted are for 63kWh and 87kWh batteries. Charging speed and time is dependent on various conditions, including charger type and condition, battery temperature as well as ambient temperature at the point of use. In cold climates, the use of on-board battery heating may be required to specifically improve quick charging speeds. Indicated quick charging time requires use of a CCS 2 charger. The Nissan ARIYA is equipped with active thermal management and charging safeguards to protect the battery during repeated quick charging sessions in a short period of time. The time taken for successive quick charging can take longer if the battery temperature activates the battery safeguarding technology.

MYNISSAN OWNERSHIP

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

10 YEAR

300,000 KILOMETRE WARRANTY WHEN SERVICING WITH NISSAN[^]

Receive assurance with up to 10 year/300,000 kilometre warranty (whichever occurs first)[^].

10 YEAR

24/7 ROADSIDE ASSISTANCE WHEN SERVICING WITH NISSAN[†]

No matter where you’re planning to journey, you’ll have the peace of mind of knowing that if you lock your keys in the car, have a flat tyre or battery, or run out of fuel, we’ll help get you back on the road at no charge[†].

5 YEAR

NISSAN FLAT PRICE SERVICE*

All Nissan vehicles first registered from 1 January 2025 are eligible for Nissan Flat Price Service. As part of this servicing program, we’ve set one flat price you’ll pay for every service for the first five services according to your vehicle’s service schedule.*

FACTORY-TRAINED TECHNICIANS

Using dedicated diagnostic equipment and Nissan Genuine Parts they’ll keep your vehicle in top condition.

NISSAN GENUINE ACCESSORIES

Your Nissan Dealer can show you a variety of Nissan Genuine Accessories to protect, enhance and personalise your Nissan.

OPTIONAL PRE-PAID MAINTENANCE PLANS

Our optional Pre-paid Maintenance Plan takes the hassle out of budgeting for scheduled service costs over time, instead offering you the convenience of a one-off payment when you purchase your new Nissan vehicle.

FINANCIAL SERVICES

Choose from a range of finance options at very competitive rates and terms, as well as various insurance solutions to protect you and your vehicle.

For more information please visit Nissan.com.au/owners, ask your Nissan Dealer or phone 1800 035 035 during normal AEST business hours.

[^] Up to 10 years or 300,000km (whichever occurs first), when servicing at authorised Nissan dealers. Where vehicle is not serviced through Nissan or ceases to be serviced at Nissan, additional years will not be added so 10 year/300,000km warranty (whichever occurs first) may not apply. Warranty protection will remain 5 year/unlimited km warranty, plus any additional service activated years previously added. Conditions apply. Lithium-Ion battery pack warranted against battery capacity loss below 9 bars out of 12 (as shown in vehicle capacity gauge), for a period of 8 years or 160,000 kilometres, whichever occurs first. Full terms at Nissan.com.au/warranty.

NOTE: Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if goods fail to be of acceptable quality and the failure does not amount to a major failure.

[†] When servicing at authorised Nissan dealers. Where vehicle is not serviced through Nissan or ceases to be serviced at Nissan, additional years will not be added, so 10 year/300,000km roadside assist (whichever occurs first) may not apply. Roadside assist duration will remain as 1 year/unlimited kilometre roadside assist, plus any service activated years previously added. Conditions apply. Full terms at Nissan.com.au/roadsideassistance.

* Ask your Nissan Dealer to explain exactly what items are covered in each Scheduled Service. Applies for the first 5 services or 5 years, whichever occurs first. Some exclusions apply. Ask your Nissan Dealer or view full terms at Nissan.com.au/service.
