P15-05-23-B

New! Technology Nissan Connect Services

Technology that ensures every aspect of comfort by enabling you to control the vehicle and check vehicle information via a mobile application

In-car SOS and SOS Automatic Emergency Call

Ensuring your safety and confidence even in emergency situations by pressing a first-in-class SOS button in your car that will bring instant contact from Nissan's emergency support center through the in-car audio system, or it automatically activates in the event of an incident when the airbags are

Enabling you to remotely start the engine and check the door lock/unlock status via the mobile application from anywhere.

My Car Finder & Remote Horn and Lights

Helping you remotely locate your car by flashing the headlights

Vehicle Health Report

Providing more comfort and care with a vehicle health report and notification if a malfunction is detected.

ALWAYS READY

More Comfort - Controls from the app

Remote Door Status and Remote Door Lock/Unlock*

Feel comfortable anywhere, anytime, with the feature that allows you to remotely check the vehicle status and lock/unlock the vehicle via the mobile application.

Remote Horn and Lights

Help you remotely locate your car by flashing the headlights and horn (or only the headlights in a noise-prohibited place).

Ready for every journey by remotely starting the engine via the mobile application (limit up to 2 times**)

My Car Finder

Remote Engine Start*

Help you locate your car via the mobile application.

- * The remote control function is controlled by the Security Code for another level of safety.
- ** After two commands, the vehicle must be started by the push-button ignition switch in the vehicle before the next remote command.

ALWAYS REASSURING

Get instant support in the event of an emergency.

The system will automatically connect to the Emergency Support Center when the airbags are deployed.*

Feel more safe and confident with instant support. In the event of accidents in which the airbags are deployed, the system automatically contacts the emergency support center and coordinates assistance (if required).**

Innovative Techno

Nissan Connect® Services

Stay connected. More comfort: monitor vehicle status and control your car via the mobile application. Emergency support can be sought via the SOS button, within arm's reach.

ALWAYS REMINDING

Showing the vehicle's status

Vehicle Health

Enabling you to check the vehicle's status via the mobile application.

Maintenance Reminder

Let the application remind you when the next maintenance service is due.

Notification Notify you via the mobile application if a malfunction is detected.

Vehicle Health

Report & Issue

Speed Alert

Brings you to another level of safety by alerting you when you exceed the limited speed via the mobile application.

Driving History

View your vehicle usage report daily, monthly, or yearly via the mobile application.

Area Alert

You can set a geographical driving boundary around any area via the mobile application and receive an alert whenever your vehicle enters or exits the area.

Theft Alert

When an anti-theft alarm is triggered, get notified via the application. Enabling you to take immediate action and keep track of the vehicle.

Curfew Alert

Set a curfew and get a notification if the vehicle is driven during the curfew time set via the mobile application.

In-Car SOS Call*

In an emergency, just press the first-in-class SOS button to get instant contact with Nissan's emergency support center through the in-car audio system, enabling you to feel safe in every situation.**

*Without enrollment in NissanConnect Services, the vehicle cannot send location information, and the customer must inform the location during the emergency call to get support. ** Please note that the Automatic Emergency Call and In-Car SOS call function cannot be fully used without enrollment in the NissanConnect Services app, and in conditions such as when the cellular network is not available, the vehicle moves outside the service area, the Telematic Control Unit (TCU) is connected to the system or where the cellular network is available, the line is busy, etc. For more information, please visit: https://www.nissan.co.th/aftersales/owner-benefits/nissanconnect-services html

Remark: • As a special offer, customers can use NissanConnect Services for the first three years. After that, customers need to pay service fees. For more information, please visit: https://www.nissan.co.th/aftersales/owner-benefits/nissanconnet-services.html • Figures are for advertising purposes. Technical specifications may vary depending on each model. • The car in the figure is equipped with the Ignite Package.

With ample head space, providing comfort for all passengers **∢**S P A C E ▶ Spacious interioir cabin Remark: • Figures are for advertising purposes. Technical specifications may vary depending on each model. • The car in the figure is equipped with the Stylish Package.

SPORTY & MOST SPACIOUS WITH FULL FUNCTIONS

An all-around sporty cabin, suitable for every lifestyle

A whole new premium sporty look in a spacious, comfortable, and multi-functional passenger cabin with the dark blue console and sporty seats that match with new Nissan steering wheel logo. It also comes with a Wireless Charger and Cruise Control Technology for the best comfort on the road.

Nissan Connect®

The latest technology that connects the new Nissan Almera with your smartphone

Technology that ensures every aspect of comfort by connecting smartphones with Apple CarPlay and Android Auto*, enabling the use of mobile applications via the car's display and audio system for a smooth experience, together with the Navigation System via Google Map and the Voice Recognition system for a whole level of joy in every journey

Wireless Charger A Wireless Charger* provides you with more comfort on every journey.

Cruise Control **Cruise Control Technology** The speed of the car is controlled by the cruise control system, which can relieve the driver's fatigue when driving

long distances.

NEW Intelligent Key Intelligent Key More convenient with the newly

Luggage Room Multi-purpose storage trunk Spacious and able to store golf bags, suitcases, designed and functional Intelligent Key or several pieces of extra-large luggage

*Only for compatible smartphones

Blind Spot Warning (BSV

The system gives you alerts when t detects vehicles hidden from sight, so you have more confidence whenever you change lanes.

Hill Start Assist (HSA)

Assisting in starting off on a slope with brake force to hold the car in place for a smooth and safer hill start

NEW

Tire Pressure Monitoring System (TPMS)

Alerts you when tire pressure is too low and could create unsafe driving conditions, ensuring more effective handling

VEW |

High Beam Assist (HBA)

his system automatically switches the eadlight setting to low beam from high earn when it detects a vehicle ahead, insuring better visibility.

Rear Cross Traffic Alert (RCTA)

Monitors the movement from the rear of your vehicle. The system alerts you about the cars that are coming your way from both left and right.

Intelligent Around View Monitor (IAVM)

This system works hand in hand with

Moving Object Detection (MOD)

to detect and alert you whenever there is any object or movement detected in the all-around cameras.

NFW

Lane Departure Warning (LDW)

For more confidence and safety, it gives you visual and audible alerts when it detects an unintentional lane departure without using the turn signal.

Intelligent Forward Collision Warning (IFCW)

This system works hand in hand with

Intelligent Emergency Braking (IEB)

to analyze the distance and speed of the car ahead and then slow down and brake to prevent a collision ahead, reducing a potential risk of the forward collision.

360° SAFETY SHIELD Around-view security technology

Providing you with the utmost confidence with an advanced 360° Safety Shield

Nissan's philosophy has always been to prioritize safety for everyone on the road. This focus helps us continuously develop the best safety technology for comfort and safety. 360-degree protection for the front, sides, and back moves you and your loved ones forward with confidence.

DRIVE CONFIDENTLY WITH FULL TECHNOLOGY SAFETY

Feel confident and safe on every journey.

Nissan's philosophy has always been to prioritize safety for everyone on the road. This focus helps us to continuously develop the best 360-degree safety shield to provide you and your loved ones the utmost confidence and safety on every journey.

Pretensioner and Load Limiter Seatbelts

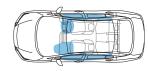

The ELR seatbelt with 3-point lock is adjustable to fit each driver. In case of an emergency, the system will restrain the passengers and the driver's torso to their seats immediately upon collision. The seatbelt will then loosen the restraining force to minimise chest injuries when the airbags are activated.

SRS Airbags

6-point air bag

When unforeseen moments occur, the front SRS airbag, side and front airbags, and side curtain airbags will inflate automatically, with the help of the seatbelt, to reduce the impact caused to the driver and front passengers from a front collision.

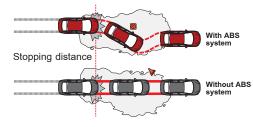

Vehicle Dynamic Control (VDC)

Maintaining a stable balance of the car upon sudden movement. Turn your car with confidence and take full control, even at critical moments.

Safety ABS EBD and BA Brake Assist

Anti-lock Braking System (ABS)

Ensures peace of mind at every moment with the Anti-lock braking system, which helps control the car's direction and maneuvers away from the obstacles at critical moments

Brake Assist (BA)

Helps improve the wheel's brake power and decreases the braking distance to ensure

Electronic Brake Force Distribution (EBD)

Improves the efficiency of the brake system, reduces the brake distance, and restores the car's balance upon sudden braking

Remark: • Figures are for advertising purposes. Technical specification may vary depending each model
• The car in the figure is equipped with the Ignite Package.
